Dear Mr. McCallum:

As requested in your letter of March 26, 1986, we have reviewed the petition filed by Sonosky, Chambers and Sachse on behalf of the Assiniboine and Sioux Tribes and recommend that the petition for review be denied. There are numerous reasons for this recommendation as follows:

- (1) The permit in question (Goings Well No. 1 - formerly owned/operated by Century Oil and Gas Co.) was issued on December 30, 1985. Notice of this action was published in the Billings, Gazette, a newspaper of general circulation in Montana. The publication of notice of permit action on December 29, 1985, constitutes proper legal notice to all interested parties and would start the count of the 30-day period for petitioning the Administrator for review (40 CFR 124.19(a) and 124.20(a)). The 30-day period for filing a petition would end on January 28, 1986. It is our understanding that the petition was hand carried to the Agency on February 3, 1986.
- (2) The petition seems to be asking for review of all underground injection activities into the Judith River Formation on the Fort Peck Reservation. The provision of 40 CFR 124.19 are specific in limiting the scope of the appeal to "... any conditions of the permit decision".
- (3) Because the Goings No. 1 was an existing injection well at the start of the UIC program in Montana, on June 25, 1984, the Judith River Formation was granted an aquifer exemption for a 1/4 mile radius around the well and consequently the Formation in question, at that location, is not afforded protection as a USDW.
